Manuscript No: 118

Title: Mental Health Realities among Youth in Nairobi County: A Research

Abstract Reviewer's Name: Withheld

1. Rate the abstract as per the scale below

5 = Excellent

1 = Poor

	1	2	3	4	5
Does the abstract title align with the conference themes? (Title should be clear what is investigated, who is involved, where, and method e,g <i>Exploring mental health stressors among middle level public healthcare managers in Kenya- a qualitative study</i>).				X	
Is the main question/Aim/Objective addressed by the research clear, interesting, relevant, and original and aligns to the topic and theme?				X	
Is the rationale for the article well grounded (Is it Based on a known theory or intended to fill a well-articulated gap?				X	

Is the methodology appropriate and applied properly? • Is it appropriate based on the objectives/aim/questions of the study? • Does methodology align with best practices for replicability and robustness?			X		
---	--	--	---	--	--

• Is there description of study population, area, data collection approach, time (year) • Where relevant, does the study indicate clear statistical measures and qualitative analyses that informs study • Is the data analysis appropriate, accurate and rigorous					
Did author adhere to ethical research standards? (If ethical approval is not evident but required, kindly highlight this in the comments section and request the same from the author) • Given the increased vulnerability associated with mental health research, assess whether the manuscript mentions specific measures taken to protect participants from potential harm. • If the study was conducted within an institution, confirm whether appropriate institutional permissions were obtained. • Is there clear evidence that the researcher sought and received relevant ethical approval from an accredited body? • Are ethical procedures and safeguards clearly outlined in the methodology? • For studies involving participants with lived experience of mental illness, check whether the abstract specifies any reasonable accommodations provided. • For desk reviews, systematic reviews, or studies using only secondary data with no direct interaction with human subjects, indicate N/A.			X		
Are the results and conclusions based on data analyzed? (results aren't overstated or overgeneralized, or irrelevant; Are policy implications clearly articulated?)				X	
Is the abstract based on rigorous research? (follow academic standards)				X	
Does the abstract clearly illustrate the problem, the gap, how the study intends to address it				X	
Does the abstract convey the main ideas in a clear and understandable manner (is it Well organized, clearly written)				X	

Does the article offer a substantial contribution science? For instance, is it highly significant, contextually novel within the Kenyan setting, groundbreaking in its findings, or does it lay a strong foundation for future research? Additionally, how does the abstract advance the field compared to existing literature?				X	
Is the Abstract clearly written, and is the argument easy to follow?					X
TOTAL					

2. What is your recommendation (*tick appropriately*)?

Accept, as is	
Accept with minor revisions	Yes
Accept with major revisions	
Clear reject	

3. If you Recommended the article to be accepted (Accept, as is: Accept with minor revisions: Accept with major revisions) which **subtheme** below does the abstract fall into to? (*tick appropriately*)?

Foundations of mental health: A focus on the family, children, and youth mental health	Yes
Promoting Workplace Mental Well-being: Creating Supportive Environments Across All Sectors	
From Awareness to Action: Suicide Prevention Across the Lifespan	
Advancing Mental Health through Research, Innovation and Technology	
Strengthening Mental Health Systems through Capacity Building for mental Healthcare workforce	
Community Approaches: Advocacy, Education and Addressing Cultural issues	

4. If you Recommended the article to be accepted (Accept, as is: Accept with minor

revisions: Accept with major revisions) what comments do you have for the author to help them improve on their abstract? (*the comments here will be shared with the author*)

The abstract requires very minor revision and qualifies in the oral presentation category, after addressing the comments. See below additional feedback.

- Title. Consider revising the title to read as: Mental Health **Challenges** among Youth in Nairobi County: **A Cross-sectional survey and Qualitative Inquiry**.
- Background. Provide data on the mental health burden among youth in Kenya and Nairobi. Rephrase sentence claiming ‘...often overlooked in mainstream health programming’ by rather explaining what the current challenges in service provision are.
- Methods: Specify measures used to assess mental health e.g. depression and anxiety. Add sampling procedures for qualitative sources. Provide details whether the FGDs were gender or age stratified (if not provide justification), and how consent including assent procedures for under 18-year-olds were followed. In the KIIs, were community-based mental health providers or organizations included? Add details on ethical approvals obtained. Indicate period of data collection.
- Results: Survey results add the frequency e.g. 68% (n=XX).
- Conclusion and recommendations: Could authors comment on ongoing initiatives targeting young people to align with the findings and recommendations provided. Are there lessons to draw from existing literature?
